## TYFOON TYRES

### About Tyfoon

Tyfoon has been a private label of Inter-Sprint B.V. for more than 25 years and has been one of the jewels in its portfolio for years.

Tyfoon tyres are produced in the European Union by Germany's largest tyre manufacturer. Using the latest technological developments, they design and produce the most modern Tyfoon tyres. Thanks to the tyre's composition, rubber compound and choice of tread design, you can count on optimal performance even under the most extreme conditions.

In addition, Tyfoon also has a number of attractively priced alternatives in its range, produced by reliable class manufacturers in Asia.

Tyfoon offers you a complete and high-quality product range at a very competitive price. Tyfoon's complete range consists of 14 modern profiles and more than 230 references in summer, four-season and winter.

The right contact with the road surface is vital in all circumstances. Whether you are alone or with your family in the car. You must be able to rely on the performance of your tyres at all times. That is why Tyfoon is the alternative to the established A-brands at a reasonable price.

***Tyfoon, The tyre to drive!***

## SUCCESSOR 7

13" to 19"

The Successor 7 is a summer tyre, specially developed for all types of passenger cars. This profile stands for sportiness, safety, low rolling resistance and noise in maximum balance! This tyre has been designed on the basis of the latest German technological developments in the field of tyres. The tyre is characterised by very stable and safe handling on wet and dry roads. The rubber compound and the renewed, stiff tread design ensure long-lasting driving pleasure. This tyre also has excellent label values and is the alternative to the established A-brands at an attractive price.

## SUCCESSOR 6

16", 17", 19" & 20"

The Tyfoon Successor 6 is a high performance summer tyre for passenger cars in the middle and top segment. The Successor 6 is the ideal tyre for sporty and active riders. This summer tyre combines speed, control, reliable handling and comfort. In sudden (evasive) maneuvers, the car remains in control, even on wet roads.

## CONNEXION 3

10" to 13", 15" & 16"

The Tyfoon Connexion 3 is a solid summer tyre for smaller family cars and passenger cars in the middle segment. Optimal road holding and excellent performance on dry and wet surfaces; you can rely on the Connexion 3.

## HEAVY DUTY 4

14" to 16"

The Heavy Duty 4 is based on an extra heavy tyre construction. The improved rubber compound makes this tyre extremely reliable and safe. The basis of the renewed tread is formed by three continuous tread bars. The robust tread blocks have slanted, widthwise tread grooves that efficiently channel water and dirt to the side of the tyre. This reduces the risk of aquaplaning. The wide tread blocks on the tyre shoulder ensure stable driving behaviour. The optimum grip and short braking distance provide more safety, and despite its robust construction, the tyre feels very comfortable.

## HEAVY DUTY 3

15" & 16"

The Tyfoon Heavy Duty 3 is a robust summer tyre for vans. Thanks to its advanced tread design, reinforced tyre build-up and solid shoulders, this van tyre delivers reliable performance. This tyre comes into its own during heavier transport.

## 4-SEASON

13" to 17"

All-season tyres are a well-considered mix between summer and winter tyres. The rubber compound is a mix of summer and winter properties. Thanks to the special rubber composition and the structure of the tread, All-season tyres perform well in the summer and also have better road holding and more grip when driving on snow or on a wet road in the winter.

## ALL-SEASON 6

14" to 18"

The Tyfoon All-Season 6 has a high-end rubber compound resulting in a good combination of summer and winter properties in one tyre. The tyre maintains proper driving and braking characteristics at all temperatures, providing reliable performance all year round. In the summer months the All-Season 6 feels firm with convincing driving performance, at temperatures below 7 degrees the tyre is smooth and maintains its grip.

## VAN 4-SEASON

15" & 16"

The Van 4-Season is an all-season tyre, specially developed for vans. The extra reinforced tyre construction forms the basis of this tyre. The all-season profile, with 3 continuous longitudinal grooves and the side continuous width grooves, generate maximum grip in all weather conditions and minimize the risk of aquaplaning. The wide, sloping, robust tread blocks on the shoulder of the tyre provide extra stability.

The tyre has the 3-PMSF certification and this meet the applicable European regulations for winter tyres.

## ALL-SEASON VAN 6

15" & 16"

The Tyfoon All-season VAN 6 is Tyfoon's latest all-season tyre, specially developed for transport and delivery vehicles. The weighted and extra reinforced tyre construction provides higher load capacity and good performance at high speeds. The all-season tread, with 3 continuous longitudinal grooves and width grooves running to the side, ensures good grip in all weather conditions and minimizes the risk of aquaplaning.

The tyre has the 3-PMSF certification and this meet the applicable European regulations for winter tyres.

## EUROSNOW 3

14" to 18"

The Tyfoon Eurosnow 3 is the safe choice for the winter season due to its excellent driving characteristics in wintry conditions. The Eurosnow 3 guarantees a comfortable and safe ride, even on a wet road surface. Thanks to a newly developed special rubber compound, the Eurosnow 3 combines maximum grip with favourable fuel consumption in all conditions.

The tyre has the 3-PMSF certification and this meet the applicable European regulations for winter tyres.

## WINTER TRANSPORT 3

15" & 16"

This powerhouse is the ideal commercial vehicle tyre for a comfortable and safe ride in wintry conditions. The Winter Transport 3 has an open tread and thanks to the special rubber compound the tyre remains supple at low temperatures, despite the extra reinforcements. This maintains grip on snowy or wet surfaces and the braking distance will be considerably shorter.

The tyre has the 3-PMSF certification and this meet the applicable European regulations for winter tyres.
